Please review the terms and conditions you received during enrollment into the Equipment Protection Program, including the binding arbitration provision, for the complete details of your insurance coverage.

Why protect your mobile device?

Increased mobility means increased opportunity for loss, theft or damage to your device, which warranties do not usually cover. Your device may be covered under the manufacturer's warranty for mechanical and/or electrical failures only. Time Warner Cable Business Class has arranged for its customers to have access to the Equipment Protection Program. The protection program gives you the freedom of mobility with the peace of mind that you can quickly and easily replace your mobile broadband device at a cost less than full price.

Just \$3.99 per month, you're covered if your device malfunctions or experiences electrical issues after the manufacturer's warranty expires, or it is lost, stolen or damaged - even with liquid. The monthly premium is paid to the underwriter, Old Republic Insurance Company, and includes the administrative fees payable to Asurion.

How do I sign up for the Equipment Protection Program?

Contact Time Warner Cable Business Class within 30 days of original purchase of your mobile device.

You are not required to enroll in the protection program in order to activate service with Time Warner Cable Business Class. You may already have coverage through homeowner's insurance or other means (your Time Warner Cable Business Class representative is not qualified to evaluate your existing insurance coverage).

Time Warner Cable Business Class will submit for approval your request for enrollment into the Equipment Protection Program. Approval is at the sole discretion of Old Republic Insurance Company. If approved, coverage is retroactive to the time the request was submitted. Monthly billing will immediately follow your request for enrollment and verification that your service and account status are active.
