** Declining deductibles will not be part of AT&T Protect Advantage, but we will honor the declining deductible feature for your first claim filed after 10/22/19, as long as you have been enrolled in the program and have been claim-free for at least 6 months prior to 10/22/19. If the claim is eligible for a declining deductible discount, it will be calculated using the pre 10/22/19 deductible table.

*** \$29 deductible applies. Limited to eligible devices in select areas. Newly launched devices models may not be eligible for repair. Visit phoneclaim.com/att or call to check current eligibility. Same day repair option depends upon claim approval time and technician availability. Repairs are performed by an Asurion-certified technician and come with a 12-month warranty. Repairs may use new or refurbished parts; may contain original or non-original manufacturer parts; and may void the manufacturer warranty. Some colors of eligible devices are not covered. Eligible devices and available areas are both subject to change any time.

**** If an eligible wireless device powers on and the battery fails to maintain an adequate charge after diagnostic testing, we will repair the eligible wireless device by replacing the battery during the extended warranty period. Subject to parts availability.

***** Applies to non-AT&T device make/model equipment only. If the Bring Your Own device make/model is currently or was previously sold by AT&T the applicable replacement and screen repair deductible tier will apply for that specific make/model as listed in this Device Eligibility and Deductible Schedule. For a non-AT&T device make/model, Device Tier C applies. Replacement option will vary depending on Deductible Tier. All Bring Your Own Device make/model equipment must be activated on the AT&T network to be eligible.
